OFFICE OF THE REVENUE COMMISSIONER IN MYSORE, Bangalore.
Dated 25th April 1950.

V. VEDAVYAS ACHARYA,
Revenue Commissioner.

715

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY IN MYSORE, BANGALORE.

Notification dated 24th April 1950.

(HEALTH OF LIVESTOCK DURING MARCH 1950).

In their order of severity, outbreaks of Blackquarter, Foot and Mouth, Anthrax, Hæmorrhagic-septicæmia, Contagious goat pleuro-pneumonia, Sheep-pox and Rabies were encountered in the State during March 1950. The State was free from Rinderpest during the month. Altogether 348 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 377 villages during the previous month. The number of outbreaks was highest in Bangalore, Tumkur and Kolar Districts, while Hassan, Chikmagalur and Shimoga Districts were least affected. These diseases accounted for 2,031 attacks of which 713 succumbed, as against 3,392 attacks and 689 deaths during the previous month.

The departmental staff undertook 28,595 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease, as against 23,359 inoculations and vaccinations during the previous month. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

Diseases caused by internal parasites were reported from 199 villages resulting in 119 deaths, as against 191 villages accounting for 164 deaths during the previous month. The special staff attached to the parasitic disease control units and the Sheep-Breeders' Associations of the department, dosed 13,328 animals as against 12,574 animals during the previous month.

The rest of the livestock remained free from diseases during the month, and fodder and water were generally available throughout the State.

P. M. NARAINSWAMY NAIDU,
Director.
